DETAILED ACTION

This application was filed 10/12/2005 and is a 371 of PCT/US04/11211 (4/12/2004) which claims benefit of 60/462941 (4/15/2003) and Germany 103-17-781.7 (4/16/2003). Claims 1-16 are before the Examiner.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 2-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Arison (5952347), Tung (5869673) and Belley (5565473). Arison, Tung and Belley all disclose montelukast, its salts, pharmaceutical composition and method of treating allergic conditions. The form B or the hemisolvate forms, once placed into a pharmaceutical composition or used to treat by getting them into the body, inherently become montelukast as is disclosed by Arison, Tung and Belley.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 14-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, these claims appear to be missing steps in the processes being claimed. More specifically, what is being done to remove the non-wanted types of montelukast? Further, what is form A? Clarification is required.

Allowable Subject Matter

5. Claims 1 and 8-13 are allowed. The closest art is the above cited art of Arison, Tung and Belley which all disclose montelukast and montelukast sodium. However, the prior art does not disclose the specific form or solvate of montelukast.
